

Lions Club of Hong Kong Belt and Road — Computer Donation Scheme

Before the COVID-19 pandemic, no one could have imagined learning and teaching could be so dependent on computers and technology.

Hong Kong Belt and Road Lions Club has donated 9 computers to our students to enhance their learning, as blended learning is becoming a trend. With their generous donation, our students are able to continue their learning with a personal computer. Thus, it helps further our mission in flourishing and thriving young people.
